**NORTH BY NORTHWEST IN 70MM** | PG | 136 MIN

One of our most popular features in a stunning new 70mm restoration. WHAT?!? That's right, North by Northwest, one of Alfred Hitchcock's most triumphantly entertaining films, has had a mind-blowing 70mm restoration, and we're bringing it to the Twin Cities. Charming ad man Roger O. Thornhill (or ROT, to his friends) must run for his life when he's mistaken for an American spy by a dastardly criminal organization. Hitchcock urged screenwriter Ernest Lehman to pull out all the stops, resulting in a breathtaking adventure whose insane plot twists work in spite of themselves. Cary Grant was never more charming, Eve Marie Saint never more alluring, and Hitchcock never more assured.

**PROJECT HAIL MARY** | PG-13 | 156 MIN

Science teacher Ryland Grace (Ryan Gosling) wakes up on a spaceship light years from home with no recollection of who he is or how he got there. As his memory returns, he begins to uncover his mission: solve the riddle of the mysterious substance causing the sun to die out. He must call on his scientific knowledge and unorthodox ideas to save everything on Earth from extinction... but an unexpected friendship means he may not have to do it alone.
